

Omegle Parent Guide

Omegle is a website offering a free video chat service which will connect you to a random stranger who you can interact with through text chat and webcam. **There is no Omegle app currently available to download.**

No account or username is required to use the service and users are anonymous unless they choose to tell other users about themselves. Users should be 18+ or over 13 years with parental permission.

The main page of the site has a direct link to an adult site which streams adult sexual content.

There are no parental controls or privacy tools available at all through Omegle other than the ability to stop a chat and move to another user.

By using Omegle, you accept the terms at the bottom. You must be 18+, or 13+ with parental permission.

Mobile video chat is an experimental new feature. Video is monitored, so keep it clean!

Omegle (*oh-meg-ull*) is a great way to meet new friends, even while practicing social distancing. When you use Omegle, we pick someone else at random and let you talk one-on-one. To help you stay safe, chats are anonymous unless you tell someone who you are (not suggested!), and you can stop a chat at any time. Predators have been known to use Omegle, so please be careful.

Omegle Parent Guide

Many children and young people have used this site to seek new friendships given the isolation they may have experienced during the pandemic. While some individuals will use this site appropriately, there have been many reports of highly inappropriate behaviour by users towards under 18's and children in primary schools accessing this service.

Omegle will connect children with strangers of any age, with no controls at all, putting them at risk of exploitation. We would highly recommend prohibiting access to the platform for all children under 18.

Use parental controls to restrict access

Keep an eye on apps or sites they use

Keep technology in family friendly areas

Encourage them to talk about their online experiences without fear of being banned
